Frontend & Tools: jQuery, Bootstrap, Responsive Design

Specialties: API Integration, Performance Optimization, SEO, Debugging, Web Security

Soft Skills: Problem-solving, Requirement Analysis, Client Communication, Ownership, Team Collaboration, Time Management

PROFESSIONAL EXPERIENCE

Software Engineer

Choice Flowers L.L.C — Abu Dhabi, UAE (Remote) | Mar 2026 – Present

- Built and published 2 production SEO applications on the official Odoo Apps marketplace — SEO Coach and Keyword Position Tracker — as native Odoo 19 modules.
- Shipped a live on-page SEO and readability coach with JSON-LD schema, GA4 and Google Tag Manager, plus a site-audit health score.
- Implemented Google rank tracking across 3 data providers (Search Console, DataForSEO, SerpApi), with competitor tracking and automated email alerts.
- Integrated WordPress and WooCommerce with Odoo ERP, synchronizing 6 data types (products, categories, pricing, inventory, billing, orders) in real time.
- Migrated 2 Zoho systems (People and Books) into Odoo through a de-duplicated pipeline with zero duplicate records, and built a new Odoo attendance system.
- Engineered a customer-segmentation engine running automated nightly email campaigns to 4,700+ customers, plus a customer-retention automation agent.
- Migrated the production Odoo stack from odoo.sh to a self-managed Oracle Cloud server across 3 environments, with 7-day rolling backups and Cloudflare-tunnelled deployments.
- Resolved complex ERP issues (intercompany invoicing/COGS, POS subscriptions, manufacturing orders) and improved site PageSpeed and SEO.

Software Engineer

Prodbrew Innovations LLP — India | Apr 2022 – Sep 2025

- Delivered 9+ end-to-end client websites (SamarthCare, Appracadabra, Coacharya, Unstract, RingerWindows, BKWIRE, Origin Nutrition, Choicebagging, Prodbrew) using Elementor and WPBakery.

- Developed and maintained custom WordPress themes and plugins for 9+ client sites, including a WooCommerce shipping plugin.
- Implemented WooCommerce e-commerce features — checkout customization, product management and third-party API integration — across multiple online stores.
- Owned 9+ projects end-to-end, from requirement gathering through deployment, delivering on schedule.

KEY PROJECTS

- **Odoo SEO Suite (SEO Coach & Keyword Position Tracker):** 2 from-scratch Odoo 19 apps published on apps.odoo.com, with live SEO coaching, schema, analytics, bulk SEO editing, site audit and rank tracking across 3 providers.
- **WordPress-to-Odoo ERP Integration:** two-way synchronization of 6 data types powering a live e-commerce business.
- **Zoho-to-Odoo Migration:** moved 2 Zoho systems (People, Books) into Odoo with verified, duplicate-free imports.
- **Customer Segmentation & Marketing Automation:** engine automatically emailing 4,733 customers on a nightly schedule.
- **Cloud Migration & DevOps:** production Odoo moved to Oracle Cloud across 3 environments, with automated 7-day backups and Cloudflare networking.
